	Document Title: <b>LEARNERS EDUCATION POLICY</b>		Document Code: <b>ACE/IMS/P-11-D-01</b>	
			Revision No: <b>1.1</b>	Page No. <b>1 of 1</b>
			Revision Date: <b>23-10-2019</b>	

ACE Learner Education Policy is being transformed by new technologies and the demands of a global needs in the industry of Safety. This requires new learning that prepares all learners with the problem-solving, critical-thinking, communication, and collaboration skills to solve the complicated problems and meet the complex challenges of our fast-paced, quickly changing world.

Today's learning must be supported by follows:

- Provides empowering learning opportunities for all Learners that develop their abilities to find and apply knowledge; think critically and creatively; solve problems, communicate, and collaborate; and contribute to the improvement of their community and society.
- Is designed and managed, to support this kind of deeper learning for each and every Learner.
- Assesses learning authentically, with tools that are used to inform teaching and support.
- Continually improves through research, evaluation, sharing of data and best practices, and ongoing inquiry within and across every level of the system.
- Develops a diverse and highly competent tutor workforce with the knowledge, skills, and dispositions to help all learner succeed.

Once learners are admitted, we ensure to assist them that they are given the academic as well as personal support necessary for successful completion of their course.
